

Introducing Forage

Innovative Job Simulations Bridge the Gap Between Students and Employers

What Are Job Simulations?

Forage job simulations are self-paced online learning programs that simulate the work performed in different roles at different companies through interactive, hypothetical tasks.

Forage Simulations Are:

Educational and Immersive: Forage simulations bring roles and companies to life for learners.

Data Driven: Learners can measure their performance on simulations and employers can track engagement.

Inclusive: There are no barriers to participation; simulations are 100% free for learners and educators.

Scalable and Always on: Simulations are available on-demand 24/7.

The collage displays various stages of a Forage simulation. One screenshot shows a 'Program Overview' for 'Task 1: Project Understanding' with a list of tasks and a video player featuring Melissa Martinez. Another shows a 'Nice work!' completion message for 'Task 1 of the Data Analytics and Visualization Virtual Experience' with options to 'Teamwork', 'Strategic', or 'Project Planning'. A third shows a 'You earned it, now share it!' screen with options to 'Add to your resume', 'Download certificate', and 'Share on LinkedIn'. A fourth shows a 'Keep it up! Build your Resume and get industry experience from top employers.' message with an 'Explore More Programs' button.

95%
of Forage users report having **higher understanding of a company** after completing a job simulation
