Features

“The anonymity through Poll Everywhere gives students the ability to jump right in, even if they might not have answered a question otherwise. We need to have more time and space for classroom discussions.”

Getting Started

Using the Correct URL

The screenshot shows a web browser window with the address bar containing `polleverywhere.com/home`. The page title is "Home". In the top right corner, the user profile is identified as "PollEv.com/tntechcitl". The main content area features a "Go to activities" button and a section titled "Activity response URL" which displays the URL `PollEv.com/tntechcitl`. To the right, there is a "Recent activities" section with a placeholder and an illustration of two people holding a glowing lightbulb.

Roster Sync

- [How to Connect to Poll Ev from your iLearn Course](#)
 - Content > Existing Activities > External Learning Tools > Poll Everywhere LTI1.3
 - It is recommended to hide the link from students.
- Participants > Courses > Select Courses to Auto-Sync Rosters

The screenshot shows the 'Participants' management interface. On the left is a dark sidebar with navigation icons: a bar chart, a home icon, a list icon, a group of people icon (highlighted with a red box), and a menu icon. The main content area is titled 'Participants' with the subtitle 'Manage the participants that respond to your activities.' Below this are four buttons: 'Add participants' (with a person and plus icon), 'Courses' (with a book icon, highlighted with a red box), 'Sync All Rosters' (with a circular refresh icon, highlighted with a red box), and 'Export CSV' (with a cloud and download icon).

Features

Asynchronous Surveys

Survey

Quiz students during or after class.

If you have a group of activities that you would like to turn into an asynchronous quiz, you have the option of turning it into a [Survey](#).

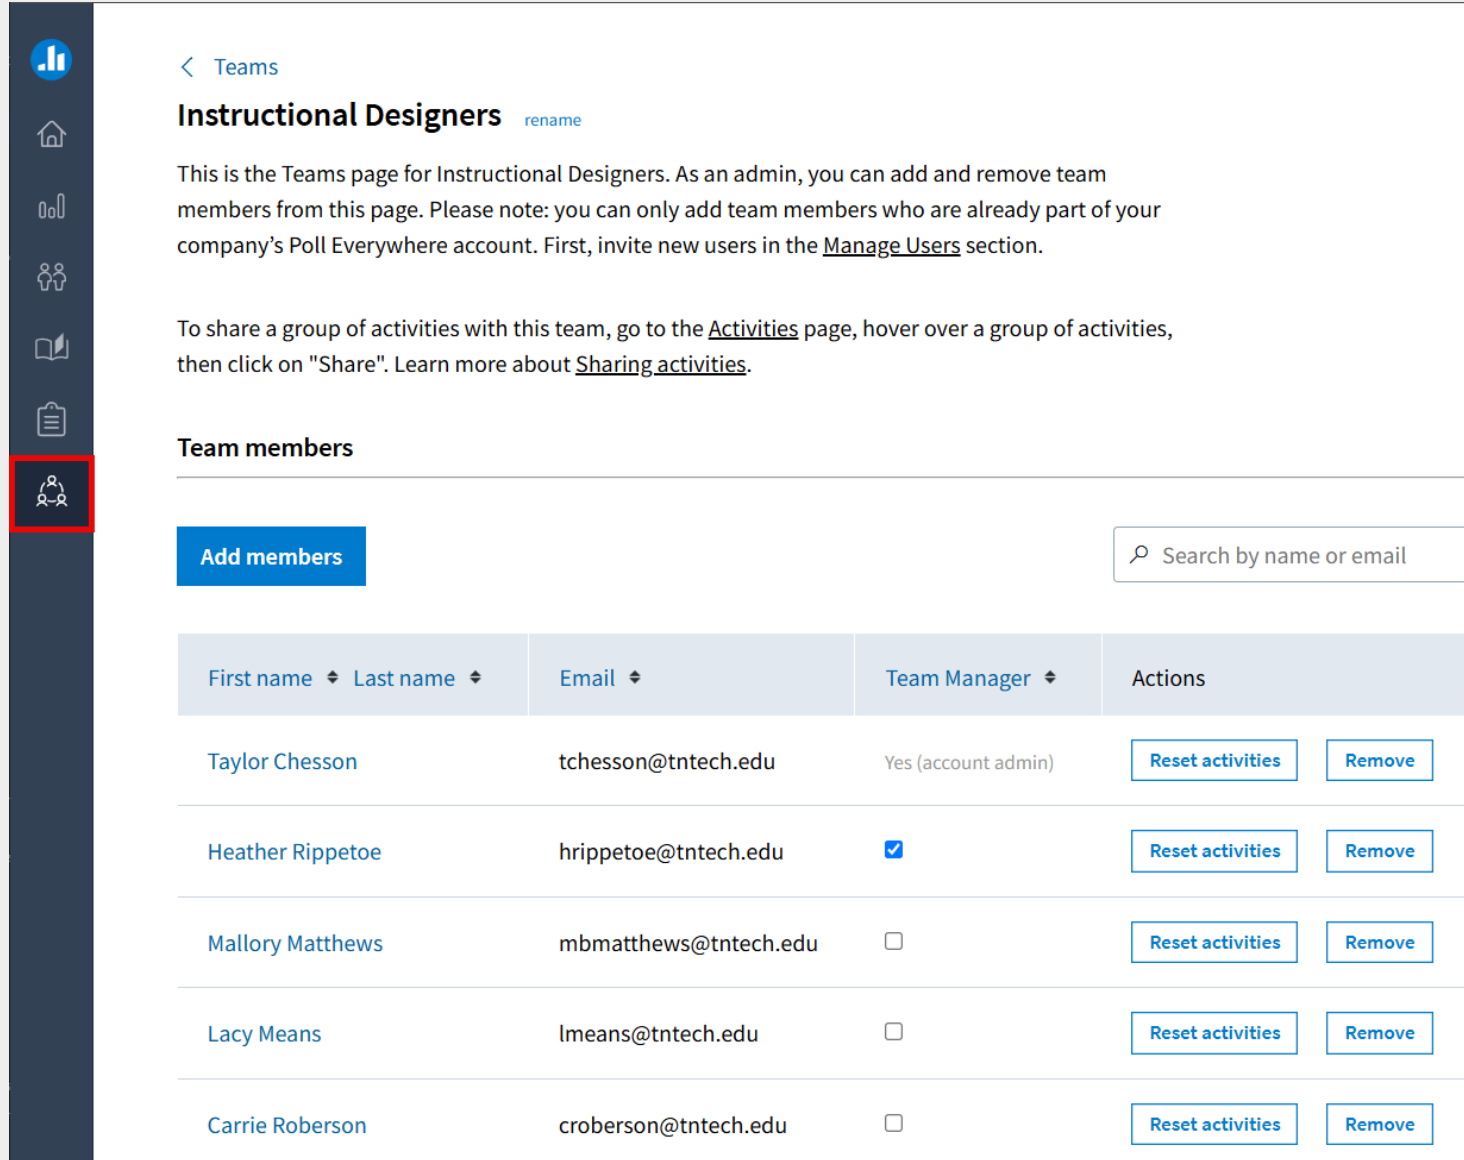

Default Activation Period

Asynchronous learning is a major part of distance learning, which means you may need to leave an activity active even after your live lecture. If so, you can set a default activation period for all activities.
